Ruminant & Farm Equipment

Unique Accessories

Bmv's proprietary probe technology and unique accessories that would enable you to provide an expert diagnosis.

I-Scan® Ultrasound Goggles

I-Scan® is ideal for BMV ultrasound machines. Every veterinarian should own this. You can see the image in bright sunlight or dark situations when I-Scan® is worn on your head and allows you to see the ultra-sound image in front of your eyes.

IFR™ Probe Introducer

Probe Introducer enables fast and accurate diagnosis for an optimized on-farm workflow which allows you to provide animals with increased safety during diagnosis. This leads to enhanced veterinarian confidence and an improved diagnosis experience.

System sunshade and protective jacket

Ultrasound probe holder

Very light weight and smooth probe holder provides easy handling. Material warms up to body temperature very quickly. Slim design enables oocyte aspiration in young animals when combined with small probe. Optimized needle outlet for recommended needles.

Robust IPX5 waterproof carrying case

Professional BPU60/L70 ultrasound scanner for Animal Science, Backfat, Muscle Scoring

Specific designed linear probe 155 mm / 180 mm long to measure back-fat, perimeter and area of loin. Standoff for measurement of perimeter and area of loin. This standoff is necessary for full display of loin eye in a transverse exploration, to perform the perimeter and area measurement.

PRODUCT LINE

SPECIAL PATENTED

BMV'S VETERINARY SOFTWARE

Patient ID/Owner Name: The patient demographic screen is dedicated to the veterinary environment with fields for the animal's name, species, and breed.

Application Selection: The veterinary application software makes it easy to choose from a list of applications before starting the examination. Measurements and Reports: complete veterinary measurement packages including abdominal, cardio-vascular, and reproductive gestational calculations provide easy examination documentation.

Wireless and DICOM Connectivity: Access to wireless connectivity, easy networking, printing, and communication with external PCs are just one click away.

Image Quality: You can rely on excellent image quality to aid fast and accurate diagnosis with BMV's system, with any application or probe. Wide Range of Dedicated Accessories

GOLDEN SERVICE PROMISE

Education

BMV dedicated to empowering and educating medical & veterinary professionals about ultrasound & surgery technology such as anaesthesia. We work closely with veterinary, front-line worker, and other clinical educators to produce specialty-specific educational content.

Our in-person and online learning options can help you jumpstart your vet practice with renewed confidence through dedicated training.

Warranty And Service

We build durability and reliability into every ultrasound system we make. Which is why in confidence, we offer our industry-leading BMV 5-Year warranty*, backed up by our outstanding service.

* For particular models, please refer to the contract

The logo for BMV Technology, featuring the letters 'BMV' in a bold, sans-serif font with a stylized wave pattern to the left, and the word 'TECHNOLOGY' in a smaller font below it. The logo is set against a white background within an orange circle.
